

The Steven Hüttüla Affair  
HHP Story 1  
Biographical Sketch  
Sunday, May 23, 1999

So Steven saw Dr. Paverish Psychiatrist in 1979 and dropped out of the Work force and went to College full time. This helped him unbewildered by Work, to study full time, he remembers the Track Coach at Clackamas Lycee saying "Work and School don't mix, you only get so long to go to School don't usually get another chance don't Work" Jim Anderson Track and Cross Country. Steven led a quite life at CCC after leaving Mt Hood College as a Freshman in 1972, Steven had a previous drunk driving ticket when he was Seventeen, and working at Tebo's Restaurant in Gladstone Oregon, so his Mother took him to classes in the morning and he took the buss home at night. He still owned a Car a Mustang 5.0 with a sun roof and trailer hook up he loved to Water Ski in his Dads Boat. On his Graduation Steven ordered flowers for the Hüttüla house, he flooded the yard with Tulips Red and Yellow, While Steven was at Clackamas University he joined the Service to help ease on his Parents paying the bill for College. Steven went into the 162 and Engineers on September 27, 1975. Under the education benefits act. He was stationed at Lake Oswego Oregon for four year under Major Karsten. Steven had a friend he slept with during the Guard drills Shawn Richard son they usually used pup tents, Steven and Shawn on off duty would frequent places like the Calico Room an Carriage Room in down town Portland, once Shawn took Steven down town it was a real treat the Portland night life. 1985 at this time Steven was done with College and had one year left in the Guard. So he invested in Land and bought a new Ford Tempo. 1985 Canyon Red. Previously he owned a Triumph Spitfire 1982 make and D'model, he later sold the Spitfire to Dan Ivence of Frank Ivence the Mayor of Portland, it had 12000 mile on it and was just s like new, Dan Ivence was going to Portland State University studding law like his Father. Steven in 1986 went to work for Swan Wooster in the 500 Building this was a new Asbestos Embatement Company owned by FH&H, Steven did drawings of were Asbestos samples were taken most lye pipe drawings of which he got an " A" in piping with Terry Shoemaker at Clackamas College. Steven left Swan Wooster in 1988 FH&H said Steven should take a vacation, but Steven new he was getting fired. Vic Hale still said Steven was the best draftsman the company had Steven still dose not now why he had to go, probably found someone who would do the job for a lot less.

Okay Steven found another job at Imperial mfg. In 1988 on labor day, Steven was in charge of the Drafting Department. He worked with the owner Alan T. Zell. And Vice President Bob Noel, Steven worked on many large super market stores drawing and designing their Walk In Coolers. Fred Meyers United Grocers Safe way and a multitude of smaller stores around the world. Steven noticed in himself a change early on that Eastman Refrigeration was logged in cursive writing and it had stopped at this point and was all straight printing after this. Well Steven had Insurance through Imperial MFG. And saw Dr. Eastman Psychiatrist. at Providence Portland Hospital, even noticed the office as similar to the House he lived in on 78th and also noticed his Scan Design Chair that he was

sitting in Dr. Eastman's office, notice the Chair later disappeared from the house on 78th in 1998, when he lived there with a Ryan Leckband of whom he Incorporated a Chat Associates Inc. Under Architect and Engineers, Ryan is his Foster Son adopted this way he meets his in the Neighborhood at Overland Park when he moves there in June 2 1992, Steven owns the House out right no Mortgage his Father buys it for him and Steven trades the Land he buys 11930 S E Lexington a prime view section of Mt Scott, 97266. Later while living with Ryan he meets Jonathan David Schar a boy 23 age from Alabama oblique, well Jonathan takes advantage of Steven's Money and Steven has to refinance the House on a first Mortgage at 35 Miller, to this day Steven can not hold a job for more than Two Months at a time, Steven went diligent with 3800 through Midland Credit because Steven paid for Jonathan Schar's traffic tickets in Oregon, note Jonathan gets his License back but later loses it to a drunk driving ticket and moves back to Alabama where Steven sends the bill but Jonathan doesn't pay.

Steven Remembers:

Okay it all started when I was Born of course, in Anacortes Washington a small Puget Sound Citizen on Fildago Island. The First thing I remember in my life as a child was visiting the Bentleys House off Oak Harbor on Fildago Island. I was Crawling toward their bulk-head or a large retaining wall they had in front of their home on the shore of Oak Harbor on Gibraltar Road. I was Crawling like a crab out of water toward the Bulk-Head which was about four foot high at the time now its Probably like two Foot Or less. Tom Bentley was in Plywood and so was my dad Walter R Hüttula they worked in Anacortes Plywood as so did most of the men in Anacortes. Along with the Refineries Shell and Texaco.

My Grandmother Edla Norgard lived in town she was always talking about Jesus and his Love, and will always be Remembered by me as a safe place to go. Her Oldest son Art Norgard has Four Children, Doug, Mark, Brad, and Diane. Wayne her Youngest has three Children, Bryan, Deborah, and Becky. My Mother Gladys was the oldest only girl. We always looked forward to go over to Arts House they had a Large Motor Boat and a Cabin on Guemess Island. In 1963 Dad Moved to Coos Bay with Tom Bentley to help Minasha Plywood start to earn a Profit, they were a Team, which the Head of or Boss was Tom Bentley. My dad's job along with Art Rickerd was to get Minasha Plywood into the Green and get them to make a Profit then as a team then they would move on. After Minasha we our Family and Art Rickerd along with Tom Bentley moved to Portland, where they had Jobs at Times Mirror Plywood, of which Tom Bentley was the Boss, Tom gave my dad a Job as Plywood Production Manger, and Art Rickerd was in Charge of the Lumber Yard and Tom Bentley Look over the whole Project as Boss. Our families were Close. Even our Dog Karlie a German Short Hair was Close to those families. When Karlie would run away we got a call soon after from Marry Art Rickerd Wife, She would say, "Guess who s over at our house Karlie He just Walked In" Karlie was one of the Bentleys Pups and Darn well new the Chain Of Command and so did we as Kids. My Family has Four Siblings, Christen, Kathy, David, and Me Steven. I was the Youngest in the Hüttula Family and ended up staying Home the Longest, I Finally move out after I graduated From Clackamas University, in 1985 and Now own Chat Associates Inc and Space Dollars.

Too My Boss at Providence:

Letter to Dr. Dave Borer MD 6/21/00 8:30:00

David I don't know what to say, but are you still out there some where looking for me. So much has happened since we worked together. How's Daniel Spangler or Deborah Fields, she sure was nice to me. And when we got mad at each other, we usually made up the next day by supplying Flowers. If you can't find me out there just go to Clackamas County Mental Health on Lake Road 2100 Lake Road Mil Or. 97222. They will definitely know where I am at. I called Daniel from St. Adventist Hospital by mail 205. Then I was transferred to Ryals on Division. But luck got the best of me and I Escaped and ran away from there went to my friends House Steven B. and he bought me a Ticket to m t Vernon Washington were my Sister lives. She has a House on Lake Cavanaugh. Basically after the Jonathan Schar fraud I've given up hope. After you work all your Life for something and then Someone else comes along and takes it away from you before you can cry for help. My Roommate Jonathan Robbed my Blind. I had so many important papers and thing in my little bedroom office. It was like stealing candy from a baby. He got away with murder, renting limos for the neighbor girls and then telling me I had to pay for it. I killed I would kill him if he came over to see me again. Well I am selling, The White House on 78th, for \$104,900\*\* you can drive by there and Look but I won't be there I am Living At Hüttüla House on 15136 SE Orchid Avenue Portland Oregon 97267, you always welcome to come on over and see me. As you now no by the disk I gave you, I've Incorporated Chat Associates Inc. Its an Oregon Trust Fund, on the stock market too only penny stocks chat-com.us the stock was at a High of 42 Dollars when I was living with Ryan Leckband then dropped way out with the Hubers moving in Bea Horne was a Witch I mean she Locked the Refrigerator and Cup boards. She was a nasty old Witch. I am so glad she is gone. Then I had renters move in, Quote disaster she got into my things before I could even move myself out, Lost all my leather coats and my Record collection, Just a bad neighborhood but then that was always happening over there. Chat-Com.us is doing better I sometimes hear you over here at the Withycombe House with Daniel. Like the time I changed the Password and Registers number to my computer, I hear Ryan and Dave Thomas talking to each other on the TCP Phone. Which usually works now just by say in g the password. I put the Registers Number in the extentions Folder, my weren't they nice to give me SSD for hearing Voices. Well the People at work were telling me to Shut up so, I guess I deserve it considering what I have been Through. Well got to close enjoy the disk and got to go to Providence Hospital, Jonathan is going on Indigent so maybe they can help me with his bill. Thank you good by for now,< br> Steven Hüttüla

Steven's Letters to John

So John came back three times to help me, and the third time he put me in my place, John was Oblique Ryan on the other hand over compensated for the difference of Gay Jesus and Ryan was Obtuse, wearing a size 47 waste while he was only a size 28. I never saw Ryan without his pants on, maybe this is a good thing. But John was always dancing around the living room naked, buck naked and Oblique you see John liked his cars, and being the Jesus lover I was I bought him a Mustang 5.0 with all the extras. John

came back after the accident and I had an envious break down you see I had Ryan's I D after the computer was down for a month which seemed like six months, I was booted up the same day my brother David came over to take me to the Sara Club which was a Mental Health Program, Well I had just typed in the letter Ryan wrote about his stay at Tillimook Basic, and I had to leave the computer on the other hand was starved for lack of stimulus during its crash, of which was only one month and seemed like six. I was picked up by my mother at Sara Club and driven to her home of which I didn't want to be any where near because of my computer at home my I D was Ryan's and John was there and I wanted to get some with him, and wanted him bad. Well, I demanded to my mother that she take me to the bank you see I had a check for 8,000 Dollars and she was holding it after the accident, I think It was through Progressive. Well, I had a fit because she would not understand that it took money to be with Jonathan was sex or good looks but I wanted to spend time with him and did not want to be there in there house. Well, to put a long story short I dragged my mother out to her car to take me to the bank and she went limp, dad called the police and they never new about the 8,000 that she had of mine just that I wanted all of it what ever it was. So I spent three months in the mental ward and was transferred to Ryles well one day on a walking outing I booked and took the bus over to my friend Steve's well he bought me a ticket on the bus and I jetted to Mt Vernon were my older sister lived. I was free to do what I want when ever I please, only with out the 8,000 Dollars and with out Jonathan, Ryan was there sometimes in and out of jail stays like always over something very small and stupid. John had one more chance and came back to help me one more time then I would never see him again, we rented a car and drove to Salem, he said he had a condo there it didn't work out the help kicked me out on the drive way the first night, and John took his sweet time in coming over to help me with my things, so he wanted to drive to Alabama were his family lived but I didn't want to pay for the car that long so I demanded to go home. And there I wrote with John'O II and Bee Horne for a year, Till they were evicted because of not pay the electric bill. Then I sold the house a year later 2001 for \$104,900 to a Jim Allen and now live at home with Walter and Gladys who are still looking for Jesus to come again when I lived and had him come back three times just to get me where I am today, yes Jesus has come back three times to help me, and my parents are still looking for the first.!!!

Ryan Leckband  
The Prayer of Jabez...  
1 Chronicle 4 :vs: 9-10...

Jabez was more distinguished than any of his brothers. His mother named him Jabez because she had such a hard time at his birth. Jabez Means "Distress". He was the one who prayed to God of Israel. " Oh that you would wonderfully bless me and help me in my work: Please be with me in all that I do, and keep me from all evil and disaster.!" And God granted him his request...

Trouble in the Middle East:  
The Two Sons of Abraham  
by: Gladys Hüttöla

The Lords promise to Abraham was that his descendants will be countless numbers as the stars in the heavens. Abram believed God. When he was 86 years old Sarah his wife who had borne Abram no children said, take my maid servant Hagar and have a child through her. His name was Ishmael. The present day Arab nation is descendants of Ishmael.

When Abraham was 100 years old and Sarah 90 the angel of the Lord came to them with the news that the child of the promise was to be Isaac, to be borne that year, Sarah laughed in unbelief. The name Isaac means laughter. The descendants of Isaac is the present day Jewish nation.

Genesis 16:11 The angel of the Lord said, God would bless both nations but Ishmael will be a wild donkey of a man, his hand will be against everyone and everyone's hand against him, and he will live in hostility toward all his brothers.

This animosity and hatred between brothers of the two nations has continued for 4000 years and our nation the USA is caught in the middle of this family feud.

Pray Ephesians 2:14-18

That Jesus Christ is our peace and will reconcile both of them to God through the cross, by which he put to death their hostility.

Steve Ponders the US Money System:

Description of a Millionaire:

I have been through allot these past few years, I recommend counting your blessings. I mean literally counting them. There are different levels of millionaires these are counted by, Cents ten thousand, Nickels fifty thousand, Dimes one hundred thousand, Quarters two hundred fifty thousand. And Dollars Million, each one of these levels are a Million air in their own right. I first invested in land what was the one thing that was already there to begin with, something that man nor beast created. Land, all you have to do is look for a good land investment. Like 11930 S E Lexington Street 97266. A product that is already there. This may be dead land. But some-day some-day there will be a day for that land. Its positive cash value only now on Francis, The checks were written in French for that Parcel of land. but understood and their for good, ( Cinq Cent Dix et no sou ) Five Hundred Ten and no Pennies. Thanks to Walter R Hüttüla he traded the land for a House on 78th. or, The White House on 78th. And we even kept the land in the family. Even taking one day at a time because even a Cent Millionaire or Ten Thousand Dollars. Is something accomplishments, Level 1 Cent, Level 2 Nickels, Level 3 Dime, Level 4 Quarters, and Level 5 Dollars. Just remember how many and what kind. Because someday your Cent may be worth a Hundred Dollars too.

Dear, Harmony

Were you Mad, I left the speed real slow, you saved that special moment for me, and kept it all for Harmony. That moment when we were alone, we had to share that mementos, and you new it wouldn't last. But you new we had not enough time together sharing Harmony what were we doing in that dump like that you delivered better especially after what happened. What

should we do get a boat along the sea. Suppose you had gone far enough, but we were getting jiggie with it. Not that I don't think of you but there's times I no I am not supposed too, Harmony was there but left for a while are you sure it was Harmony.

Son

You made me that knight until morning light, forever young together young. We needed together until morning the knight was ours and we spent the afternoon sun. But its all right and its been a long cold winter. Its all right. Sun sun sun here we come, ice is slowly melting, Here comes the son.

But I would rather be alone sometime I press the Moon but it keeps me in my place, who alone will enter there, but the broken hearted.

Smile I was born too make you happy, smile. like a watch with out a dial like a sink with out a faucet. what would I do if I didn't have you, smile. Its like a apple only a orange, but unreal the two can become three. chasing a line love is real.

The White House on 78th

By this time January 2000 I've depleted all most all my possibilities of getting back into my house, the good years will be remembered at Winco and auto bill pay by phone, with manager at Winco David B. those were the good years, with Ryan tapping on the window to come in and talk to Steve and have a cigarette, then Ryan wanted Kenny Rhodes to move in with me and it was down hill from there, Kenny for one ruined the kitchen floor with his muddy shoes and then he left for Seattle, and Nick and Renee moved in for a short time, I admired Nick for keeping it quite about myth with me I had never used it at that time and didn' t know what it was. Then Ryan brought over Jonathan Schar and he moved in, this was a mistake because Jonathan not only introduced me to myth but took a good swing at making me lose my house by his credit fraud. So then I took out a Thirty Five Thousand Dollar loan and balanced the books and quit Winco. I in other words gave up the will to work. After owning the house out right and balancing the budget for a good five years since June of 92 when I moved in. then Jonathan came in for the kill and got me high. After this Ethan Cross moved in and also took advantage of the Bank of the house at Wells Fargo account which was my portfolio and him just sitting there at the Bank with my money it doesn't make sense how did they open a account with my ID and Ethan Cross behind the pen. Then Ryan moved in this was pleasant because Ryan would have his own life out side of the house and mind his own business inside the house, he wrote letters to Janelle Enger. and Shone Barbee was taking care of him. And the kitchen for me it ran like a business even with night deposits from Ryan's and my bottle money. At this time Ryan got arrested for stealing the bottles and went to Mac Allen and my life fell another turn of complete Chaos. By the time ryan got out of Mac Allen I was working at Winco again. But that was short lived because Jonathan came over and I ran away to Salem with him, and lost my job at Winco. Well Jonathan left me in a condo he was living in and went over to a friends house who was also named Ryan, and the painter s he was working for kicked me out of the condo that day with all of my stuff on the driveway. Jonathan didn't show up for a long time I managed to get to a phone and call his cousin Eric West, Jonathan showed

up later that evening saying he fell asleep at Ryan's. So I got in the car and went back to my house on 78th where I felt more comfortable. Then Ryan and Doug were missing and found out later Ryan was living under the bridge for this time I was gone. Then Rainbow and John's Huber moved in at this time Rainbow was not to be messed with she was the boss. well she moved away because the police were always looking for her. And Bee and John's moved into her bedroom. Well Bee was a witch she locked up all the food and put a lock's on the refrigerator so I would have to ask her to get anything at one time I picked the lock to the refrigerator and she threw a knife at me screaming something about her food. Well that lasted a year and believe me it was not easy living with Bee Horn and John's they never worked and got assistance from the welfare for food with me included. Then the power went off at the house and they had to move out because I was not going to pay the bill while they treated me like that. But as soon as they where gone the Neighbors had another charity case come along and then we got Jon Johnson and Alarmed McKinley (alias) "Jane Doe" that's where we were with them not paying anything to live there I pay the mortgage and mom even wrote a check for five hundred which was about all a got from them in rent out of five months not paying, they trashed the painting job Jonathan did previous and the doors to the bedrooms got broken down. So I evicted them in the middle of winter Alarmed McKinley and Steve Anderson her colored Boy friend. From; Steve Hüttüla January 2000

Dear, Chris Nielsen

Okay today it is raining outside and we just finished lunch Mom made scrambled eggs with corn and green peppers and tomatoes out of our garden. Ryan called so I talked with him, he received my letters, I sent him a copy of his Bank-1-One statement it comes to the house till he gets out, he plans on going to work release to get out sooner. I have my restore diskette which helped me to dial out on my i Mac, how is your Macintosh you have from Eric, and how is your class at the community college going. that was a net time in my life to be able to go to College up there in Everett in 84. Basically I am getting use to my Earthlink server. On your computer there should be under sounds a place to record a alert setting you can put in a CD and record say 20 seconds of the special spots on your CD's. I have a talking alert also and enter praises that people have said over the years, and enter them on random enter, We canceled AOL although I had allot built up on the myftpspace which was were they store the web pages. So that is all gone I would have liked to stay with them but there service went down hill after that attack of September 11. Mom and dad went some where and I think is a doctors appointment for Dad. Here is our new E-mail address again its. Good bye for now your brother. Steven Hüttüla, AS, ADDA.

Crew Member #1 Steve H.

Today I had a Wacky Day I sent out my 24 letter limit to the class of 1977 Clackamas High I will finish sending them tomorrow Yesterdays Last was Greg Muth and today I left off at Linda Thomson, I noticed as the Letter were going out That I really pretty much know everyone. I remember Yavon Saddler she liked to read. She was always getting picked on because

she liked to read. Didn't you no reading is a escape just like writing is an Extension. She is Married now but probably is a very loving and smart wife. I remember CPT Martin English saying "Its your Duties to escape " you don't no how much better I felt after he said this. and Especially with Ryan. and me with Riles..

Crew Member #2 Charles K.

I notice that Steve Wilson was not in the classmate trap we never heard from him after he went into the marines. I just wonder if he's Locked up in some Hospital. Because when I new him he was a nut. He was my mentor in high school we were always the same Grade point average and I was on Honor Roll all the time like him. It wasn't really anything special for me to be on Honor Roll. But my last year it was like this all changed I got a "C" in wood shop and in Drafting which was my Major. SHOCK I all most never recovered..

Crew Member #3 Iris H.

On the Stupid side with Steven Claris they asked for ID but Drop dead if I go through tracing Jonathan all the way through to Pocahantas again. Jonathan had a Mail Box through Advocate then I realized after He asked me to marry him and left when the money was gone. But Jonathan and I figured this out. John Didn't give any more than 360 Max. Total. Its like you don't spend Thousands of Dollars a month when you only give me 50. Jonathan if he was Jesus was not worried about the cost of anything at all. But on the lighter side I really did buy Jesus a 5.0 Mustang just like I promised too.
